

Online Art Exchange Geschwister Scholl Schule Tübingen, Germany Parkside Academy Durham, England

From April to May 2023 students from the Parkside Academy in Durham and the Geschwister Scholl Schule in Tübingen met online for a digital youth exchange. They got to know each other, shared their perspectives and created a photography project together while physically being over 1000 km apart from each other.

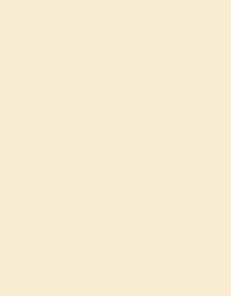

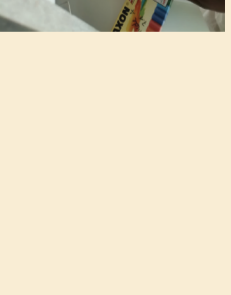

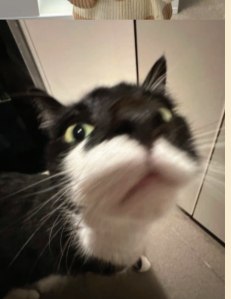

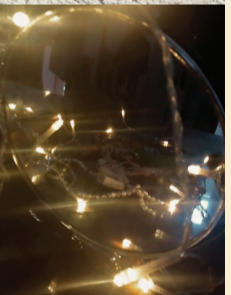

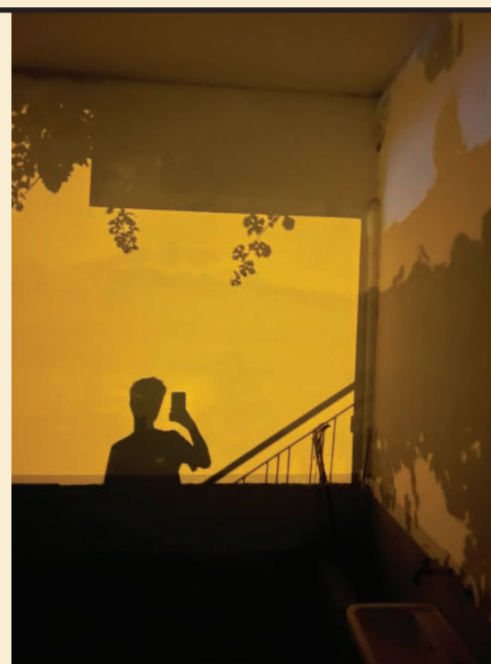

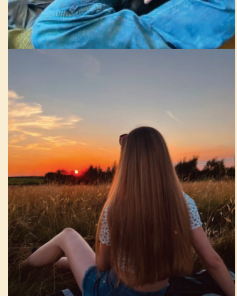

The participants developed captivating self-portraits and digitally explored each other's lives in the partner cities. They also discussed the topic "It's feeling good!" and created a photography series in small groups connected to that topic, sharing their viewpoints and experiences with what makes them feel good together.

This digital exchange was funded by the City of Tübingen to facilitate connection and friendship between young citizens of the partners County Durham and Tübingen.

Online Art Exchange is a digital exchange program by Friendzone.Studio.

1. Blue

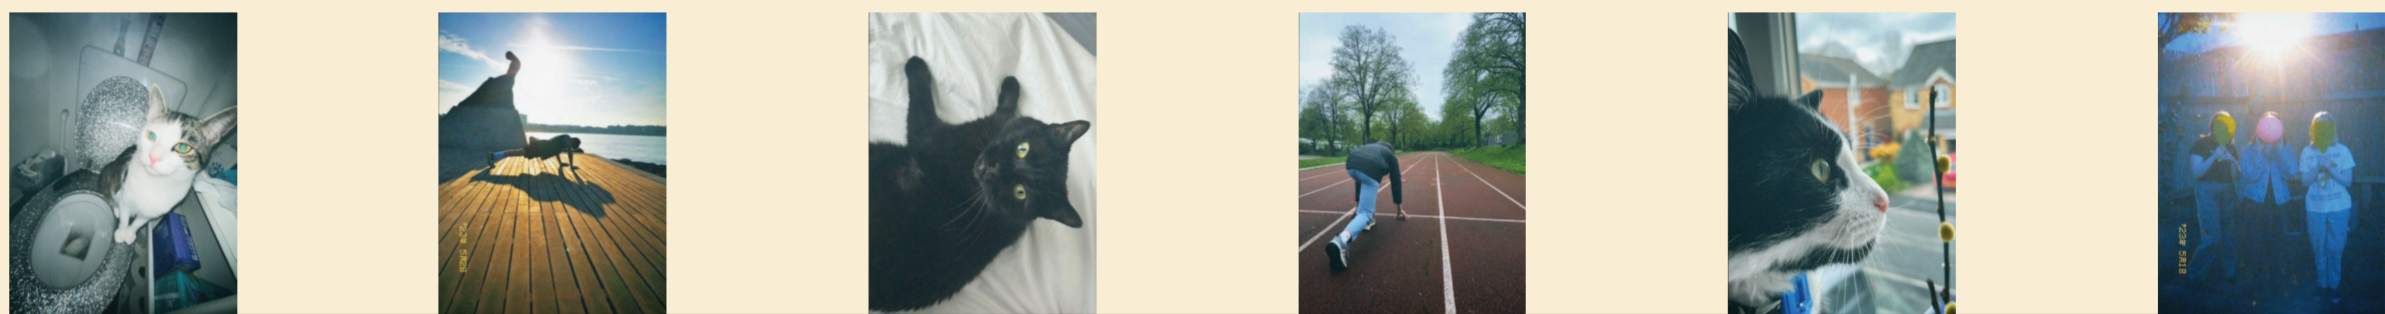

Usually, “feeling blue” is interpreted negatively. We have taken our images to show that blue can be a good feeling. “Feeling good” can be found in many unexpected places.

2. Vintage

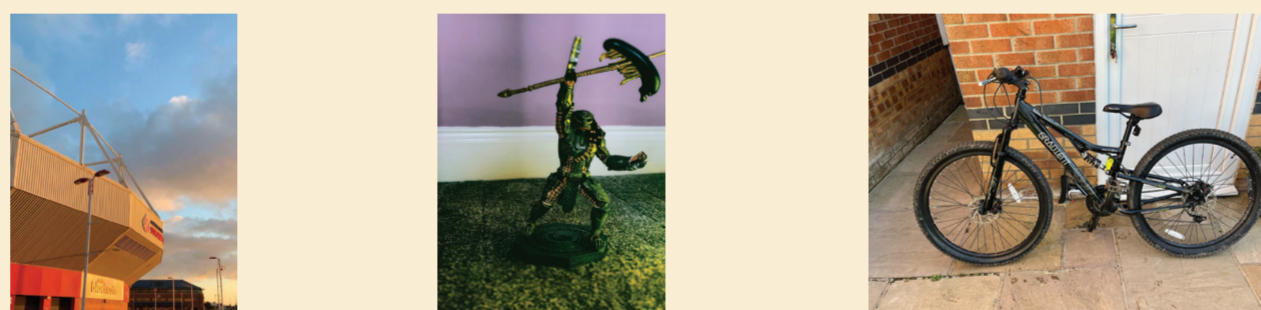

In our photo series, we all decided on a theme of vintage. We did this by all using the same filter on an app called DazzCam. The filter was called CPM35. During our photo shoot we focused on the idea of relationships and hobbies.

3. Hobbies

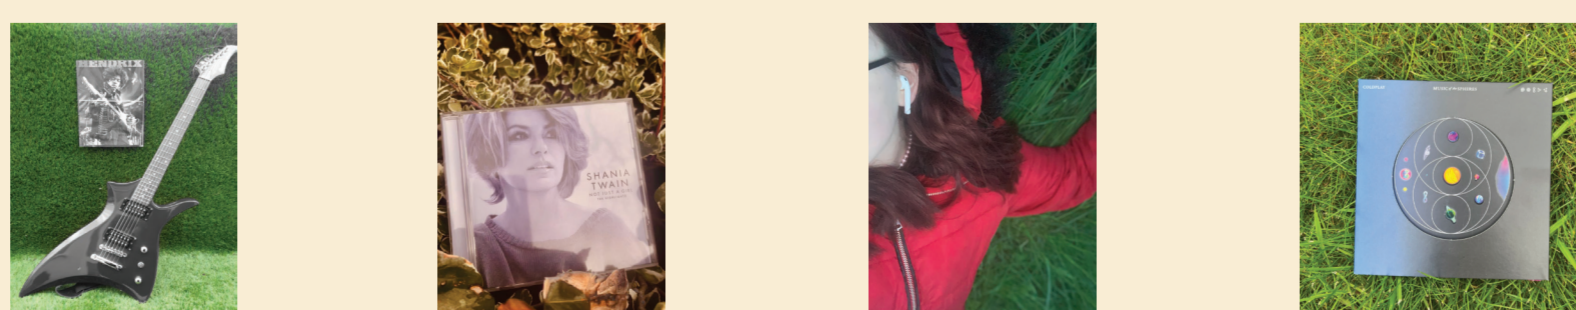

Our group chose the topic hobbies to reflect the individuality of all of us and to show how even if we are different we still can connect.

4. Individuality

Individuality is what makes a person, who they are and defines their likes and dislikes. For example their music taste and hobbies.
