

Questions about school?

Dear Parents,

Would you like to help your child in school but you have questions about how to do it?

- Would you like to know how our schools work or how you can prepare your child for daily school life?
- Would you like to help your child develop good learning habits or help with his or her homework?
- Do you need assistance during meetings with teachers or at parent-teacher conferences?
- Do you have general questions about school?

Our team of volunteers would like to provide information!

Luzia Köberlein
Equal Opportunities and Integration Officer

Who are our volunteers?

They are multilingual people of different ethnic origins, who have attended a training program to answer important questions concerning school.

How can our volunteers help?

They can offer support to parents during meetings with teachers or at parent-teacher conferences and are prepared to answer all questions having to do with school. Since they speak several languages, if you have language difficulties, they can act as interpreters. They are bound by an obligation of confidentiality at all times.

Why is this support important?

In order for your child to be successful in school, close cooperation between parents and school is necessary. The more informed you are, the more you can give your child the support she or he needs and help her or him achieve success in school.

How can you contact our volunteers?

If you would like to meet our team or have any questions, we are more than happy to provide answers and guidance as necessary.
